WARREN IVAN T. BALUIS, RCE, SO2

San Jacinto, Pangasinan | P: +63-9765037885 | warrenivanbaluis@gmail.com

PROFESSIONAL SUMMARY

Registered Civil Engineer (RCE) with experience in Quantity Surveying, Quantity Take-Offs, and Construction Cost Estimation. Skilled in interpreting structural and architectural drawings, preparing Bills of Quantities (BOQ), and performing detailed material quantity measurements for various construction projects. Experienced in handling structural and architectural take-offs for multiple bidding projects, as well as evaluating quantity variations and cost implications through Change Order Management. Proficient in Bluebeam Revu, PlanSwift, and Microsoft Excel.

CORE COMPENTENCIES

Structural Quantity Take-Off

- Concrete Quantity Estimation
- Reinforcing Steel Quantity Estimation
- Formwork Quantity Estimation

Architectural Quantity Take-Off

- Masonry and Partition Works
- Architectural Finishes Estimation (such as tiles, waterproofing, etc.)

Quantity Surveying & Cost Estimation

- Bill of Quantities (BOQ) Preparation
- Material and Labor Quantity Estimation
- Construction Cost Estimation
- Change Order Preparation and Evaluation

WORK EXPERIENCE

Don Lee Builders, Inc. *Juan Luna St., Binondo, Manila*

Quantity Surveyor/Cost Engineer *July 2025 – Present*

- Perform detailed structural and architectural quantity take-offs based on construction drawings, specifications, and project requirements.
- Prepare and consolidate Bills of Quantities (BOQ) for various construction projects, ensuring accuracy and consistency in quantity measurements.
- Conduct material quantity assessments for concrete, reinforcing steel, formworks, masonry, and other construction components.
- Handle quantity verification, scope assessment, and cost evaluation for project Change Orders.
- Evaluate material price escalations and prepare supporting quantity and cost breakdowns for Change Order submissions.
- Coordinate with the estimating team to review drawings, specifications, and technical documents for more than 10 bidding projects.
- Manage commercial and technical documentation required for bidding and cost proposals.

JD Nicomedez Enterprises *Malasiqui, Pangasinan*

Site Engineer *January 2025 – June 2025*

- Supervised construction activities, ensuring compliance with project specifications, quality standards, and site safety requirements.
- Prepared material quantity estimates for rebars, concrete, hollow blocks, formworks, and other construction materials based on project plans and specifications.
- Performed structural analysis and design of steel components for a warehouse project.
- Supervised on-site drainage construction, monitoring work progress, quality, and compliance with engineering specifications.

BRIMS CONSTRUCTION (ON-THE-JOB TRAINING) *Pinewoods, Baguio City*
Site Engineer and Material Estimator *April 2023 – June 2023*

- Assisted in monitoring construction activities to ensure compliance with project schedules, quality standards, and safety regulations.
- Prepared material quantity and cost estimates for reinforcing steel, concrete, and hollow blocks based on project plans and specifications.

EDUCATION

PHINMA - UNIVERSITY OF PANGASINAN *Arellano St., Dagupan City*
Bachelor of Science in Civil Engineering (BSCE) *2020 – 2024*

ADDITIONAL

Technical Software Skills:

- Bluebeam Revu – PDF drawing review, measurement, and quantity take-off.
- PlanSwift – Digital construction quantity take-off and estimating.
- Microsoft Excel – BOQ preparation, quantity summaries, material breakdowns, and cost computations.

Certificates: Quantity Surveying Building Estimation, Cad Excel & Planswift – Udemy; BESO Safety Trainings and Consultancy Services (*40 Hours Construction Occupational Safety and Health Training)*
